Spring 2019

UNIVERSITY RESEARCH SYMPOSIUM

The University Research Symposium is an annual university-wide showcase of student research, scholarship and creative endeavor. On April 5th, 2019, the Brown Ball Room in the Bone Student Center was host to 301 posters and 401 student presenters. Throughout the day, faculty, staff, and visitors came to show their support of the students and their projects. The graduate school would like to thank all students and faculty mentors who were involved in this year's symposium. All were integral to the event's incredible success.
