

# University Research Symposium

## — Spring 2023 —

The University Research Symposium was held on April 14, 2023. This annual university-wide showcase of student scholarship, research, and creative endeavors was held in the Brown Ballroom and Circus room at the Bone Student Center with Theatre oral presentations taking place in person on April 20th and Physics oral presentations taking place in person on April 15th. There were 280 posters and 370 in-person student presenters, including 27 E-Posters.

The day brought many visitors to the symposium from faculty/staff, students, administration, and the general public. The Graduate School would like to thank all students and faculty mentors who were involved in this year's symposium.
